Tentative list of themes for data design for analysis and report writing

- a. Funding
- b. Damages
- c. Reconstruction
- d. Relocation
- e. Politics
- f. Rebuilding resources
- g. Time

Color-coding Transcripts

- a. Funding
- b. Damages
- c. Reconstruction
- d. Relocation

- e. Politics
- f. Rebuilding resources
- g. Time

It is important to be open to new themes (not on the list above) and identify those as such. To the greatest extent possible, I use the respondent's own words when I create a theme to not mischaracterize what the respondent is saying. Also, there will be overlap so that for example, someone may discuss funding and politics so must decide if it is primarily coded under 'Funding' or 'Politics' or both. When you read the transcript and come across text that seems to focus on 'Funding', you will highlight that text in **Green**, and you can add a note using the Comments function with any explanation you might think is necessary.

Ref No	Code	Definition	Example
01	Funding	Provides any information related to costs, funding needed for rebuilding and financial parties related to recovery	I had a total of 25.000€ in damages and no insurance
02	Damages	Related to flood damages to property and community	I had a total of 25.000€ in damages and no insurance
03	Reconstruction	Related to processes to rebuild property, community and damaged items	My house is still being repaired and it will take longer than expected
04	Relocation	Related to physical relocation of property/possessions	I could not stay so I had to find an apartment to live in while we are rebuilding
05	Politics	Related to processes of recovery, rebuilding and systems involved for individuals and community	We didn't get much information about whether or not we could have emergency funding
06	Rebuilding resources	The resources needed or identified for the recovery process	We had to find 2 new electricians because they are not able to finish the work
07	Time	The time needed or involved in the recovery process	My house is still being repaired and it will take longer than expected
